*We understand your industry.*

Image is everything. An excellent uniform program complements the professionally designed casino interior. Creating the right image ensures an outstanding customer experience. That experience results in your success.

We know that.

Mezzaluna Designs Inc. works with casinos like yours to design and manufacture uniforms that complement the interior, meet the demands of your employees and enhance your image.

## Fabulous uniforms...

### CASINO

- cocktail servers
- table games
- slots
- cage
- security
- evs / facilities
- player's club
- retail
- valet

### FOOD & BEVERAGE

- host / hostess
- servers
- bussers
- bartenders
- chefs
- banquets

...that enhance your customer's experience.

HOTEL

front desk  
bell desk  
valet  
hotel housekeeping  
room service  
hotel security

## Uniforms designed to complement your image.

From initial concept to final manufacture, Mezzaluna's team of professional uniform designers work with you to create the perfect uniform to enhance the brand of your casino.

Using today's fashionable yet durable fabrics, we create uniforms in a wide variety of styles, from classic to city chic. Our precision pattern making and manufacturing processes ensure proper fit, function and fabulous uniforms.

Mezzaluna delivers more than uniforms.

SERVICES

- casino opening assistance
- on-site uniform fittings
- bar code & microchip inventory control
- warehousing for quick delivery
- limitless uniform sizing
- on-line order history
- on-line delivery status
- proven project manager customer service

All uniforms begin with the design process. Mezzaluna's award-winning and highly qualified designers have created some of the most successful casino uniform programs in North America.

## Stock or custom programs... which is right for you?

We believe there is a place for both types of programs in the casino industry. Mezzaluna specializes in custom uniforms because we know how important it is to our customers to maintain a unique image in the marketplace. Only a custom program provides full-size fitting requirements and the specialty details that are not found in a stock program.

### **Does custom mean expensive?**

Absolutely not. A custom program not only offers a uniform designed specifically for your needs, but also uses fabrics that are manufactured to withstand the work environment that will far outlast typical stock garments. Your long-term costs are reduced by choosing a custom uniform program.

## We're ready for your design challenge!

Whether you need a uniform for one department, or a program for your entire casino, we're ready to offer custom fabrics, colors, buttons and embroidery that are sure to enhance your image. Our designers pay close attention to function and fit, because we understand that a successful uniform not only looks stunning, but is comfortable to wear in the workplace.

## We offer design-only services.

Some of our clients commission Mezzaluna for design-only programs. Design-only offers the benefits of a custom program with the flexibility of manufacturing options.

### The benefits of design-only:

- Get the exact image you require
- Reduce meeting times by at least 60%
- Use less of your personnel
- Work with one vendor, not three or four
- A guaranteed comprehensive and coordinated program
- Send a professional RFQ for manufacturing
- Ownership of the final samples
- Ownership of the final designs
- Savings on the final product
